

SATs Results 2018

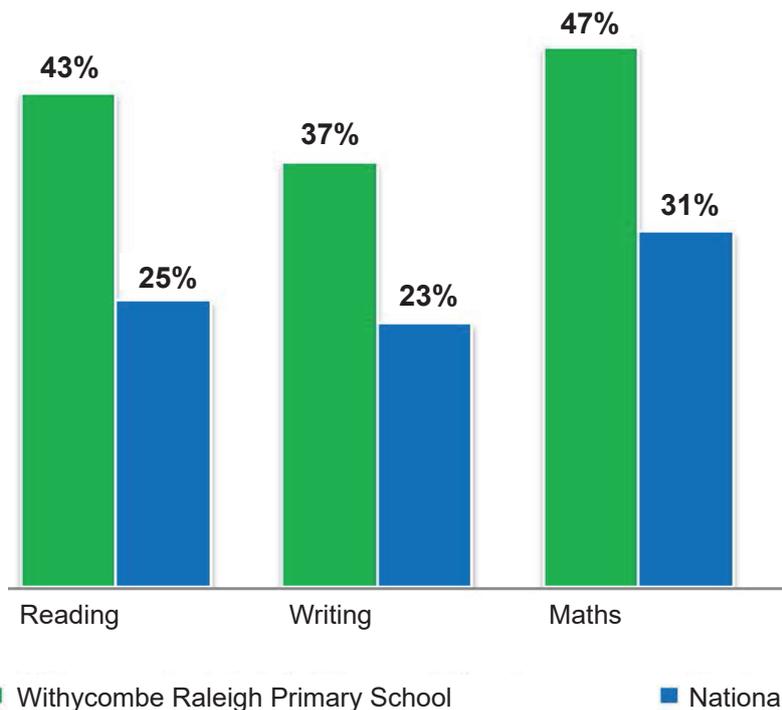

We are delighted with our SATs results again this year, which are well above the National Average, and we are very proud of all the hard work the children have put in over the years. They all pushed and challenged themselves and we have every confidence that they're well placed to continue to be successful in their education throughout Secondary School.

Thank you to the Year 6 staff who worked tirelessly teaching the children, including offering boosters and revision sessions after school to help prepare for the tests. Thank you also to all the staff who have taught these children from Foundation right up through the school, who have all played their part in preparing the children for their Year 6 outcomes. Here are our outstanding 2018 results:

Percentage of children reaching the Expected Standard:

Percentage of children reaching High Attainment and Greater Depth:

There are no National Average comparisons for this year so National results shown are for 2017.
