

## Physical Development

### Tennis and Dance

We have a tennis coach in to school to help us learn some tennis skills! During our dance sessions, we will learn to use our imagination to move our bodies and tell a story.

## Understanding the World

### Seasonal Change & Growing

We will build on our knowledge of growing by learning about the life cycle of a butterfly.

## Mathematics

### Mastering Number

We will consolidate our subitising and counting skills. We will secure our knowledge of number bonds (2 numbers that make 5 and 10, eg:  $4+1=5$  and  $8+2=10$ )

**Summer 1**

**Caterpillars & Ladybirds**

## Literacy

### Fiction: *What the Ladybird Heard*

We will use the storytelling approach to learn the route the robbers in our story take. We will make maps and then turn our maps into sentences to show what we know!

## Communication & Language

### Vocabulary

We will be learning lots of new words and signs to help us to remember and embed our new vocabulary, and will use and apply these new words when we play!

We will continue to practise reading with prosody to give our words their meaning!

## Expressive Arts & Design

### Collage & Illustration

We will learn about two artists: Megan Coyle and Lydia Monks. We will learn about their work and how to make artwork just like them!

## Personal, Social & Emotional Development

We will focus on building relationships, looking at family and friends, sharing and teamwork.
