

Breaking the Cycle of Poverty

From Saturday 14th until Sunday 22nd January 2023
we invite you to take part in our school *Cycle Challenge!*

We'll have static bikes in school and we're aiming to collectively cycle
6,600 miles!

That's the equivalent of cycling from Exmouth to Kibera.

Your family can take part outside of school too.
Maybe you'll take a cycle trip at the weekend, or maybe you'll
cycle to school all week. Whatever you choose to do,
add up your miles and let us know!

(we'll send you a link to submit your miles to our collective total)

This challenge is to raise money to help *break the cycle of poverty*
for the children in the Kibera slum. Funds raised will be donated to
The Bright Hope Education Centre.

If you're able, voluntary donations can be made via [ParentPay](#)
