

Understanding the World

GRACE Values & Harvest Festival

We will explore outside, observe the changing seasons, finding out about our natural world. We will find out about our GRACE values and experience our first Harvest Festival at the church.

Physical Development

PE / Fine & Gross Motor Development

We will start our indoor and outdoor PE sessions and access the Continuous Provision to develop and strengthen our fine and gross motor skills, in the classroom and in the garden. At Snack Time we will learn about healthy choices and managing our needs.

Communication & Language

Rhyme Time

Research tells us that nursery rhymes can support children to develop their language, their awareness of sounds within words and even their later reading. We will use the nursery rhymes across the school year and aim for the children to leave Reception knowing a bank of rhymes by heart.

Expressive Arts & Design

Colour Monster Feelings Jars & Learning New Songs

We will think about different feelings and use talk to describe times we have felt those different emotions. We will use a collage technique to sort and stick coloured materials. We will learn new songs and rhymes together to sing in our new classes!

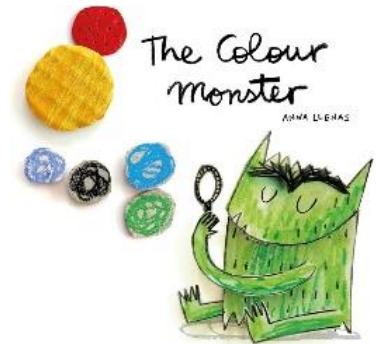

Mathematics

Sorting

Subitising, Cardinality & Counting

We will explore number, learning to subitise (see how many without having to count!) and representing these numbers using our fingers or marks. We will learn to sort and explore patterns and talk about what we notice.

Literacy

Story Time, Storytelling and Book Corner

We will use key texts to explore, notice and predict! We will learn how to handle books and will start to learn about graphemes (letters) and phonemes (sounds) in our Phonics learning and our Reading Practice sessions.

PSED

School Values & Rules

We will learn about the rules at school that help us to feel safe and to make good choices. We will learn to take turns, explore and share our feelings and find out what to do when we have a worry or need help. Ask us about 'pick, play, pack away!'
