

Key Instant Recall Facts Year Two – Summer 2

I know the multiplication and division facts for the five times tables

By the end of this half term, children should know the following facts.
The aim is for them to be able to recall these facts **instantly**.

5	5
$1 \times 5 = 5$	$5 \div 5 = 1$
$2 \times 5 = 10$	$10 \div 5 = 2$
$3 \times 5 = 15$	$15 \div 5 = 3$
$4 \times 5 = 20$	$20 \div 5 = 4$
$5 \times 5 = 25$	$25 \div 5 = 5$
$6 \times 5 = 30$	$30 \div 5 = 6$
$7 \times 5 = 35$	$35 \div 5 = 7$
$8 \times 5 = 40$	$40 \div 5 = 8$
$9 \times 5 = 45$	$45 \div 5 = 9$
$10 \times 5 = 50$	$50 \div 5 = 10$
$11 \times 5 = 55$	$55 \div 5 = 11$
$12 \times 5 = 60$	$60 \div 5 = 12$

Key Vocabulary

Multiply

Times

Lots of

Divide

Multiples of 5

Top Tips

It is important to practise these facts **little** and **often**. You do not have to practise them all at once; you could choose a fact for the day. You could practise these KIRFs whilst on the walk to school or on a car journey. If you would like more ideas on how to support your child's learning, please speak to their teacher.

Things to try at home

- Use what they already know – encourage your child to use their knowledge of the five times table for recalling the division facts or to count up in steps of five to calculate a division question
- Explore the number patterns created by the five times table—what can we spot? How does this help us?
- Play games on the White Rose One Minute Maths app (free) or practise on TTRockStars
